Sat, 08 Dec 2018 03:56:00 GMT Basic Model Theory - Stanford University - Model Theory is the part of mathematics which shows how to apply logic to the study of structures in pure mathematics. On the one hand it is the ultimate abstraction; on the other, it has immediate applications to every-day mathematics. The fundamental tenet of Model Theory is that mathematical truth, like all truth, is relative. Mon, 05 Nov 2018 17:00:00 GMT
